Wire ways and wiring, FORMATIVE ASSESSMENT

Module #	671101000-KM-05:
NQF Level	level 4,
Notional hours	110
Credit(s)	Cr 11
Occupation or Specialisation	671101000: Occupational Certificate: Electrician
Associated Occupation	671101: Electrician

Purpose	The purpose of this Formative Assessment is to evaluate learners understanding on the specific outcomes and/or assessment criteria and prepare the learner for the summative assessment. This will show that the learner is ready to be assessed.
Context	This assessment represents the Formative Assessment component and should be completed in the classroom/training room.
Resources	The following are resources needed for this assessment: 1. Learner Guide; and 2. Assessment Preparation.
Instructions to Facilitators	Facilitators will be required to: • Explain the completion of the Formative Assessment to each learner; and • Interview the learner on similar questions, should he/she not be able to write.
Instructions to Learners	Learners will be required to: • Complete the Formative Assessment as per the instructions; • Ensure that all questions are completed; • Ensure that the completion of the workbook is their own work; • Ensure that all annexure are attached to the workbook and clearly referred to;
Assessment Time	Learners are required to complete this assessment within the allocated time frame/hours.
Total Mark	This formative assessment carries a total mark of _ **points.** In order to meet the pass mark, learners are required to achieve a minimum of **80%** of the total marks.

Barriers

People to be involved with assessment

Learner: Sasa Mamoloko	Manager:
Trainer:	Mentor / Coach:
Facilitator	
Assessor:	Moderator:

Next steps for learning

Resources required for this assessment

Guidelines to the learner: Sasa Mamoloko S Sasa M.S

Learners Name: Sasa Mamoloko

Learner's signature: S Sasa M.S

Facilitator Name: _____

Date:

Facilitator's signature: _____

Date: _____

ASSESSMENT APPEALS PROCEDURE

1. A learner has the right to appeal under the following circumstances
   - If the laid down assessment procedures were not followed during assessments
   - If not all evidence available was taken into account during the assessment
   - The assessor was not a subject matter expert or did not have a subject matter expert during the assessment process
   - The assessor did not assess according to the performance criteria and range statement stipulated in the unit standard
   - Not all the range items were available for assessment

TO: The Internal Moderator

A meeting with the internal moderator is hereby requested to discuss the outcome of my assessment.

Internal moderator name _____

Date of submission: _____

Name of employee assessed: _____

Name of Assessor: _____

Date of feedback session: _____

Grounds for Appeal

No	Tick the applicable ground(s) for appeal	Tick
1	The assessment did not follow the laid down procedure	
2	Not all evidence available was taken into account during the assessment	
3	The assessor was not a subject matter expert nor was a subject matter expert present during the assessment process	
4	The assessment was not according to the performance criteria and the range statement stipulated in the unit standard	
5	Not all the range items were available for the assessment	

PRE-ASSESSMENT MEETING CHECKLIST

Points Assessor must cover in the initial meeting with the learner - Please tick

Item	Points to be covered	Tick
1	Welcome the candidate **and put them at ease**	✓
2	**Explain the purpose of the meeting** (why you are there and how long the meeting will take)	✓
3	**Explain the** ▪ NQF ▪ Credits ▪ Certification process ▪ Learning pathways	✓
4	**Explain** ▪ Who is involved in the assessment and their role (learners, coach, assessors, managers, moderators) ▪ Principles of assessment (fairness, confidentiality, validity, sufficiency)	✓
5	**Explain the assessment process?** ▪ Check learner readiness for assessment (logbook / self assessment) ▪ Assessment contract to be completed ▪ Preparation of learner (this meeting) ▪ The assessment (observation and knowledge questionnaire) ▪ Judgement of the evidence ▪ Outcome of assessment (competent, not yet competent, need further evidence)	✓
6	**Give Learner copies of the following documentation and explain each document** ▪ The Assessment Guide which includes ○ The relevant unit standard (s) ○ Assessment contract ○ Assessment plan ○ Observation checklist ○ Knowledge checklist	✓
7	**Discuss the assessment plan** (complete the assessment plan document) ▪ Allow the learner to participate in the decisions made ▪ Agree on dates, time and venue for the assessment and feedback ▪ Agree on evidence the learner can submit ▪ Agree and explain the assessment methods ▪ Identify and discuss special assessment needs of the candidate ▪ Identify and eliminate unfair barriers (language, disability etc) ▪ Discuss and agree on witness requirements	✓
8	**Tell the candidate his/her rights and responsibilities, the assessment procedures and policies** ▪ How many times they may be assessed ▪ Appeals process / procedure ▪ Reassessment policy	✓
9	**Ensure the assessment environment is appropriate** or make special arrangements	✓
10	Discuss moderation	✓
11	Allow the learner opportunity to clarify any items discussed	✓

Complete the following questions as per instructions provided

· Correct routing

- Wireways must be installed away from sources of heat, water or mechanical hazards unless properly protected.

(B) ① Type of installation environment :

- Indoor, outdoor, wet, dusty or corrosive environment require different types of wireways.

Task	Questions Description	Marks
3	Describe the purpose of load distribution, lightning arrestors and energy control units.	5

① load distribution

Purpose: Load distribution ensures that electrical power is evenly shared across circuit or phases in an installation.

Why it is important.

- prevent overloading of one circuit or phase
- maintains stable voltage levels
- Reduces heating and damage to cables and equipment.

② Lightning arrestor

purpose: protects electrical installation from high voltage surges caused by lighting strike.

Why it is important;

- Protects appliances and electrical systems
- prevent fires and installation failure.
- Ensures safety of people and property

③ Energy control unit

purpose: An energy control unit manages and regulates the use of electrical energy in a system.

Why it is important:

- Improves energy efficiency
- Reduces electricity costs
- prevents overloading by controlling demand.

Task	Questions Description	Marks
4	Explain the various processes of measuring, testing and calculating earthing and bonding system values.	5

a, ① Earth resistance measurement
- Done using an earth resistance tester.
- Ensure the earth resistance is low enough for fault current to flow.

5

② Continuity measurement.
- Done using a continuity tester or multimeter
- Confirms that all parts are properly connected (bonded)

ⓑ Testing earthing and bonding systems

① Earth fault loop impedance test.
- measures total resistance of the fault current path.

② Earth leakage test.
- Test operation of earth leakage protection devices.

③ Visual inspection.
- Check proper connections
- Correct conductor size
- And no corrosion or damage.

Application for Assessment

First Attempt ☐ Second Attempt ☐ Third Attempt☐ RPL ☐

Observer/Witness required: Yes/No

Name: _____

Contact Number: _____

Interpreter required: Yes/No

Name: _____

Contact Number: _____

Was Employer informed of request for Assessment: Yes/No

Type of Assessment: Theoretical

Practical

Recommendation for Assessment

The applicant has completed his/her training, has prepared for the assessment and is now ready to be assessed.

The ETDP Practitioner believe that the candidate is ready for the assessment because he has completed the relevant unit standard.

MG

Assessment Planning

	Theory	Practical
Date of assessment:		
When would be the best time for the Assessment?	9H00	9H00

Have you received an application to assess the candidate? Yes
What assessment methods do you consider using? (observation, assignment, presentation, etc.) Explain method. 1. Written Assignment : Printed Questionnaire 2. Observation : As per Practical Assessment Guide 3. Interview : List of Questions as per Practical Assessment Guide after Practical Observation
What resources would you require to conduct the assessment? 1. Assessor toolkit 2. Theoretical assignment 3. Practical assessment 4. Learner toolkit
How would you sequence your activities? Explain 1. Record preparation process 2. Meet with group/candidate and explain assessment procedure – how you are going to conduct the assessment 3. Learner will write summative assessments
